

Louisiana Stormwater Coalition Meeting Announcement

The Louisiana Urban Stormwater Coalition (LUSC) will hold a two day workshop December 9 and 10, 2010 at the Louisiana Transportation Research Center on the LSU Campus. The meeting will concentrate on preparing Annual Stormwater Reports and The Stormwater Management Plan. The impacts of the new directions in TMDLs and integrating your storm water program and your Flood Insurance Program will be covered. On site inspection training and SWPPP review will be offered. Speakers will include Thea Lomax, Enforcement Supervisor Louisiana and Oklahoma; Dr. E. deEtte Smythe, Regulatory Manager, St. Tammany Parish; and Stormwater Program Managers from the active programs in Louisiana.

The LUSC is an educational non-profit organized to help the Urban Stormwater programs in Louisiana meet the requirements of their permits. It is composed of Stormwater Program leaders, Public Works officials, elected officials from towns and parishes interested in storm water, consultants and suppliers working in storm water and educational and regulatory personnel. It provides a forum for the regulated community, regulators and suppliers to meet in an informal atmosphere to share ideas, clarify requirements and work together to solve problems. All parties with interest or involvement in Stormwater Management or protection are invited to attend and become members of the Coalition.

The meeting will be held in the Conference Center at the Louisiana Transportation Research Center on the south edge of the LSU Campus at 4099 Gourrier. Registration will begin at 8:00 a.m. each morning and the program will begin at 9:00 a.m. Lunch will be furnished with coffee and snacks in the morning and at breaks. A workbook will be provided. Registration will be \$100.00 per day or \$175.00 for both days. Seating in the Conference Center is limited to 100 so early registration is encouraged.
